ORDINANCE NO. 02-2017 OF THE CITY OF BURLINGTON RESTRICTING THE
SALE OF DOGS AND CATS FROM ESTABLISHMENTS WITHIN THE CITY OF
BURLINGTON

WHEREAS, the Common Council for the City of Burlington finds that a significant
number of puppies and kittens sold at pet shops come from large scale, commercial breeding
facilities where at the health and welfare of the animals are not adequately provided for
(Commonly known as "puppy mills" and "kitten mills" respectively), and statistics estimate that
vast numbers of puppies and kittens are sold to the public from commercial breeding facilities
without safeguards for humane conditions and adequate care;

WHEREAS, the Common Council for the City of Burlington finds that in commercial
breeding facilities over-breeding; inbreeding; minimal veterinary care; lack of adequate and
nutritious food, water, and shelter; lack of socialization; lack of adequate space; and lack of
adequate exercise has been found; and

WHEREAS, the Common Council for the City of Burlington finds that such inhumane
conditions in puppy and kitten mill facilities lead to health and behavioral issues in the animals
bred in those facilities, for which research has shown may not present themselves until sometime
after the purchase of the animals, and has a capacity to negatively affect financial, other costs and
emotional costs upon consumers; and

WHEREAS, the Common Council for the City of Burlington wishes to address the sale
of puppy and kitten mill dogs and cats in pet shops to help ensure that the public health safety and
welfare is adequately protected; and

WHEREAS, the Common Council for the City of Burlington finds that restricting the
retail sale of puppies and kittens to only those that are sourced from or work in cooperation with
shelters or rescue organizations is likely to decrease the demand for puppies and kittens bred in
puppy and kitten mills, increase demand for animals from animal shelters and rescue
organizations and otherwise improve the public health, safety and welfare; and

WHEREAS, the Common Council of the City of Burlington finds that the New Jersey
Department of Health statistics show the euthanization of 20,000 dogs and cats in New Jersey
animal shelters annually due in large part to pet overpopulation and the Common Council for the
City of Burlington further finds that restricting the retail sale of puppies and kittens to only those
that are sourced from animal shelters and rescue organizations will likely reduce pet
overpopulation and thus the burden on such agencies and financial costs on local tax payers; and

WHEREAS, the Common Council for the City of Burlington finds that the adoption of
this Ordinance will have no adverse effect on the City or its surrounding communities, whether to
local businesses or to pet lovers and owners, but have a positive impact on the economy by
protecting the health, safety and welfare of the City's residents; and

WHEREAS, the Common Council for the City of Burlington finds that the adoption of
this ordinance will not adversely affect a consumer's ability to obtain a dog or cat of his or her
choice given the number of breed-specific rescue organization or shelters, hobby breeders where
the consumer can see directly the conditions in which the dogs or cats are bred, and can discuss
with and directly interact with the hobby breeder concerning those conditions; and
